-

A permit can be a two step process. First you must obtain a signed permit from the Villas 46A HOA for only the items listed the first section. (the Permit fForm is available on our web site). Secondly you must always obtain the SLHOA3 ALC Permit Request Form from the SLHOA3 Architectural Landscape Department.

* Compliance is mandatory to these requirements. Unapproved changes may result in action being taken as outlined in the 46A R&R's Section 3 and/or SLHOA3 R&R. After receiving approval from Villas 45A, the approval form must be submitted to the SLHOA3 Architectural Office for a SHO A3 permit.
